

Trex®

Where
life
plays

out.

Decking

Stylish composite decking outperforms wood for hassle-free outdoor living

Highly Durable

Composite deck boards that stand up to both weather and weekend mishaps alike—they won't rot, warp, splinter, fade or stain.

Easy Care & Cleanup

Our boards need no sanding or staining. No kidding. Easy soap & water cleanup keeps decking like new.

Always Green

Sustainably made in the U.S.A. using up to 95% recycled plastic film and reclaimed sawdust.

Heat Mitigating

Deck colors with this symbol are engineered with heat-mitigating technology to be noticeably cooler than similar colored boards in the same sun and heat conditions.*

*Trex decking with heat-mitigating technology can still get hot to the touch when direct sunlight and high temperatures converge for extended periods of time. We therefore recommend shoes, socks, and pet booties, so that you and yours can enjoy living on your deck as much as we've enjoyed innovating it.

Railing

Metal and composite collections make it easy to find your style and frame your view

More Material Options

From traditional composites to sleek metal offerings, our wide selection of safe and stylish railing options offers more choices for your build.

Elevated Style

With cable, mesh, glass and baluster infill options, you can achieve a look that suits your style and is a fashionable alternative to standard wood or vinyl railing.

Durability to Match our Decking

Built with the same outstanding durability as Trex decking—your railing is engineered to endure whatever Mother Nature sends its way.

Easy Installation

Deck railing kits, pre-assembled panels and online resources make installation simple.
