MAC
METAL ARCHITECTURAL

For over 30 years, MAC Metal Architectural has offered its customers top-of-the-line steel siding and roofing designed and manufactured entirely in Canada. In our constant quest for innovation, we offer a series of profiles designed to last: elegant, versatile, and environmentally friendly—products with unique, rich colors that bring style and elegance to the projects they cover.

At MAC, we never compromise on quality or aesthetics. We make every effort to offer you products that respond to architectural trends and are the perfect stylistic complement to your property. We want to help you turn your new project into the dream place you've always imagined.

At the heart of our concerns, environmental responsibility and sustainable development are shaping the future of construction and renovation. We promise you high-performance, long-lasting products that can enhance the appearance and value of your property by 6-8%. Maintenance-free products that will protect your buildings envelope for years to come, thanks to our Peace of Mind 40-year warranty.

Let's create an inspiring space together and discover a world of possibilities where the only limit is your creativity.

LET YOURSELF BE INSPIRED!

THE LOOK AND RICHNESS OF WOOD

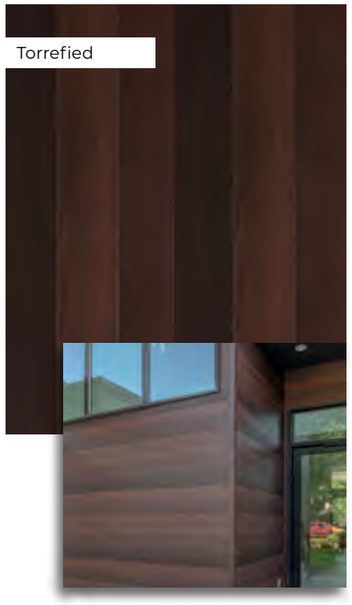

Without the maintenance!

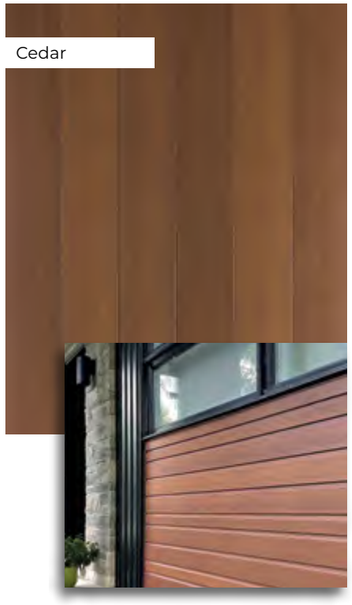

With busy schedules, time for home maintenance can sometimes be a luxury. The Wood Collection presents the beauty and elegance of wood without the upkeep, allowing you to enjoy the longevity and comfort of your home for years to come.

Within the Wood Collection, each color showcases six distinct planks with a range of grains and shades, meticulously designed to authentically replicate the appearance of natural wood. Our objective is to provide you with products featuring contemporary designs and colors that seamlessly harmonize with their surroundings.

A TOUCH OF WARM TONES

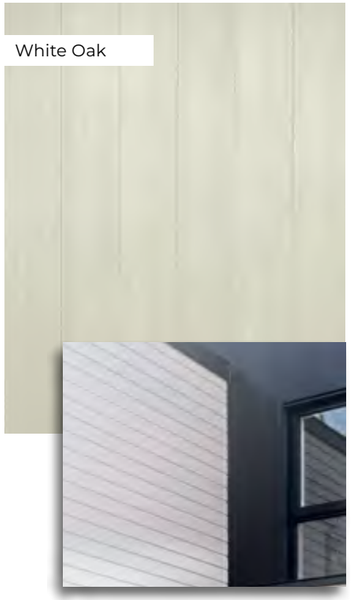

ANYTHING BUT NEUTRAL

WHAT'S YOUR SHADE OF GREY?

BOARD AND BATTEN

For a timeless farmhouse style

Embrace the Farmhouse style with our Board & Batten and Reverse Board & Batten profiles. These options provide you with the contemporary, timeless, and authentic style beloved in the modern design world. Opt for a captivating play of contrasts with tone-on-tone colors or choose from our selection of hyper-realistic wood shades.

Regardless of your choice, MAC's Farmhouse series will infuse your projects with style and finesse. What's more, you're opting for a durable, maintenance-free product!

8 REASONS TO CHOOSE MAC

1

HIGHLY RESISTANT PAINT

With TEXTURAL III (polyurethane-based) and IV (PVDF-based), MAC offers its customers a unique paint process that provides superior protection against weathering, extreme climatic conditions, micro-cracks, and scratches.

2

A 40-YEAR WARRANTY

We use only top-grade steel for our products, combined with an incomparable paint process that ensures longevity and robustness. This combination enables us to offer you our Peace of Mind 40-year warranty, perfect against distinctive climate, giving you peace of mind for years to come.

3

AN ENVIRONMENTALLY-FRIENDLY PRODUCT

In a world where every environmental gesture counts, MAC does its utmost to contribute in its way, to leave a cleaner planet for future generations. We have developed greener production processes that enable us to offer highly resistant products that comply with the strictest industry standards, in addition to opting for environmentally friendly practices in our daily operations.

MS 1 | Titanium Black

4

A PLUS FOR YOUR PROPERTY

With the transferable warranty it comes with, MAC steel cladding adds value to your property. In addition to save you significant installation costs over the long term, you'll be able to increase the value of your home by 6-8%.

5

A MAINTENANCE-FREE PRODUCT

MAC steel profiles are easy to clean and maintain. Simply washing with fresh water on a regular basis preserves their appearance and performance considerably reducing maintenance costs and long-term environmental impact.

6

GREATER RESISTANCE TO RUST

MAC Metal's prepainted galvanized steel coatings are renowned for their corrosion resistance, thanks to TEXTURAL III and IV paint systems (polyurethane and PVDF-based), which provides superior protection and help extend the life of your buildings.

7

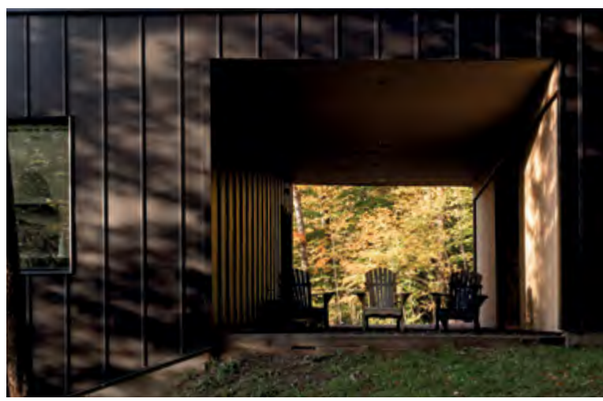

A TOP-QUALITY PRODUCT

Performance, efficiency, and customer satisfaction are our top priorities, and we never skimp on quality. That's why we offer you quality profiles that stand out from the crowd!

8

A PERFECT FINISH

In addition to being THE leader in hidden screws profiles, MAC also offers a multitude of complementary accessories to complete your projects down to the smallest detail. They are available in the same variety of finishes and colors as the steel sections, enabling designers and architects to create unique designs.

POLYMAC

Style and character

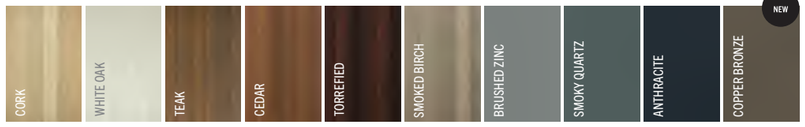

Polymac architectural panels seamlessly merge style, strength, and efficiency. The panel's robust design excels not only in its adaptability and flexibility but also in the availability of complementary accessories. Offering unparalleled effectiveness and affordability, the Polymac panel stands out as the optimal choice on the market.

NEW | Our Polymac profile can now be installed vertically or horizontally. Use U molding for stack installation or Offset junction molding for counter-joint installation.

METAL BLOCK

For a design that stands out

This uniquely designed profile with no visible joints perfectly reproduces the look of architectural blocks. Determine the distance between the transverse grooves on your project to leave an unmistakable signature. Use them in 12 x 12 format to reproduce the look of steel tiles or in 12 x 24 to recreate ceramic blocks, all at a fraction of the price. Discover this versatile profile in design and installation, which can be laid diagonally, horizontally or vertically.

STEEL
A SUSTAINABLE CHOICE

Over the years, we've worked to develop more energy-efficient and decidedly more environmentally friendly production processes, enabling us to offer solid products that comply with the most rigorous industry standards. Our steel sections are made from 86% recycled material, fully recyclable forever.

By prioritizing steel as a raw material, we actively contribute to preserving the environment and building a more sustainable future for generations to come. Our profiles will help your project achieve LEED certification, an international mark of excellence and success in sustainable construction.

CONTRIBUTE TO LEED POINT CREDIT

LEED V4.1 | Building Design & Construction (C+CB) -
Heat Island Reduction (valid only for roof coverings with slopes > 2/12 depending on the Solar Reflectance Index (SRI) greater than 29 corresponding to the chosen colour) | 1 to 2 points

LEED V4.1 | Building Design & Construction (C+CB) -
Environmental Product Declaration (EPD) | 1 point

LEED V4.1 | Building Design & Construction (C+CB) -
Raw Materials Supply | 1 point material composition

LEED V4.1 | Building Design & Construction (B+C) - Material composition | 1 point

LEED V4.1 | Interior Design & Construction (C+CI) - Low-emitting materials | 1 to 3 points

** Please note that the LEED points shown above are awarded in the building design and are not intrinsic to our profiles.

OUR ENVIRONMENTAL CERTIFICATIONS

At MAC, we focus on transparency in our operations, reducing our carbon footprint and ensuring that our products comply with the most stringent environmental standards. To demonstrate our exemplary honesty with our customers, we offer you the opportunity to consult our environmental certifications, all verified by an independent third party.

- EPD (Environmental Product Declaration)
- HPD (Health Product Declaration)
- ETS (Environmental Technical Sheet)

** To consult our environmental data sheets, go to our website, Resources page, Technical Documents section.

OUR PLANT

▪ LEED - GOLD CERTIFICATION
Thanks to the adoption of sustainable building strategies in the design of our new factory and manufacturing practices, the new MAC building will be LEED V4.1 gold certified in 2024.

▪ ICIOR+ CERTIFICATION
Thanks to our efforts, we are supported by RECYC-QUÉBEC's ICI on recycle + program, which testifies to our commitment to making a significant contribution to preserving the environment.

OUR SOURCING PRACTICES

▪ TEXTURAL PAINT SYSTEM
MAC prioritizes paint processes that are free from lead and cadmium, two metals known for their carcinogenic effects. Additionally, our exclusive Textural IV & III paint systems contain no traces of volatile organic compounds (VOCs), which are also known for their toxicity and harmful effects on the environment and human health. Our sourcing practices ensure that we provide safe and sustainable products for our customers while also minimizing our impact on the environment.

▪ PREMIUM QUALITY STEEL
Our choice of North American steel for our profiles reflects our commitment to significantly reducing the carbon footprint of our products. What's more, our procurement process respects environmental issues such as handling, methods and transport distance

MS 1 & MS 2

Continuous lines from roof to wall

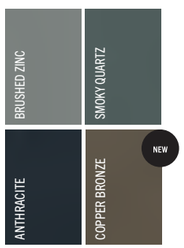

This triangular pinch-strip profile offers a unique feature with no visible joints, making it an essential element in the design of living spaces featuring clean, flat surfaces. Used for roofing, cladding, or to create a balance of harmoniously aligned lines from roof to floor, it will bring a timeless, linear design to your project.

MS 380

A touch of dynamism

The gentle groove of Corrugated MS 380 makes it the perfect modern solution. Unlike conventional corrugated panels, which tend to have a more industrial appearance, MS 380 has a gentle 3/8'' groove that makes it much more refined and versatile. Flexible lengthwise, it allows for some malleability for a curved installation.

As an insert, or to create an interesting architectural detail, this siding adds a gentle sinuosity to buildings in need of vitality.

THE TEXTURAL SYSTEM

2 x more resistant to UV rays
3 x more resistant to corrosion

Safe for you and the planet

Did you know that the paint systems we use are lead and cadmium free? Moreover, they contain no traces of volatile organic compounds (VOCs). Our top priority is to provide safe and sustainable products to our customers, while minimizing our impact on the environment.

MAC provides two exclusive paint processes, TEXTURAL III (polyurethane) and TEXTURAL IV (PVDF), which offer superior protection against extreme weather conditions and climate. Our commitment is to offer high-quality aesthetic solutions that not only withstand harsh weather conditions but also enhance the beauty of materials while ensuring exceptional durability.

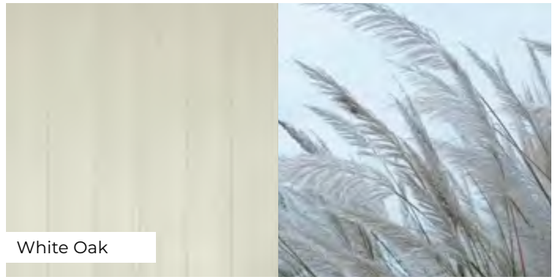

We offer a wide range of rich, unique colors that perfectly replicate the look of noble materials such as oxidized copper, zinc, quartz, and wood. Their matte finish adds a touch of sophistication and eliminates reflections of sunlight, giving them an impeccably clean look.

Our Textural technology is tested and proven to deliver outstanding performance. MAC coatings last the test of time with exceptional corrosion resistance, excellent fade resistance, superior weather protection, and scratch resistance. We use advanced paint technologies for high-quality coatings.
